Subject: Microsoft Settlement

Dear Renata Hesse: As a citizen of the United States of America from the state of Maryland I would like to urge you to settle the antitrust case with Microsoft. The settlement that was reached between the federal government and microsoft on November 3 2001 in my opinion was a fair and reasonable compromise. As a IT professional working in a hospital there are more pressing issues that needed to be addressed than this antitrust case. Seeing relatives and friends became unemployed recently because of the declining economy makes settlement of this antitrust case more urgent and necessary. Sincerely
Stephen Tse
